Dear Master Gardeners,

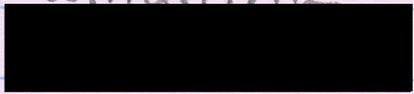

Thank you for teaching me. My favorite thing was the potato soup. I learned how to read nutrition labels. I also learned that there was such a thing as chocolate mint leaves. I learned that the back of seed packets tell you all need to know to plant a certain plant. I also learned about different trees too. That helped a lot. You are the best! I will miss you.

Sincerely,
Hope 104

Dear Master Gardeners,

I learned how to read nutrition labels. I also learned how to identify different kinds of trees. Something else I learned was how to plant onion bulbs. One more thing I learned was how to plant geranium flowers. One thing I liked the best was the potato soup.

From,
Samantha

Dear Master Gardeners,

Thank you for teaching us about gardening. I liked when we ate potatoe soup. I also liked when we shoveled woodchips. I learned that trees make their own food. I also learned that dandelions are hard to pull out. I liked when we learned about how to dig out potatoes. And I also learned how to plant onion bulbs. But what I liked most of all was the veggie salad. That really tasted good! Thank you so much.

Sincerely,
Olivia

Dear Master Gardeners,

I really appreciate you volunteering your time to come to our garden house every thursday. I enjoyed discovering and learning new things. one thing I learned was a walking plant grows seeds at the top and leans the seeds plant themselves and it does it again and again. another thing I learned was how pollen goes from flower to flower by a bee. my favorite activity of all was putting the wood chips down to make a path. my garden experience was wonderful because I liked planting

Sincerely,

Shawn

Dear Master Gardeners,

I really appreciate you volunteering your time to come to our garden house every Thursday. I enjoyed discovering and learning new things.

One thing I learned was that the potato famine in Ireland.

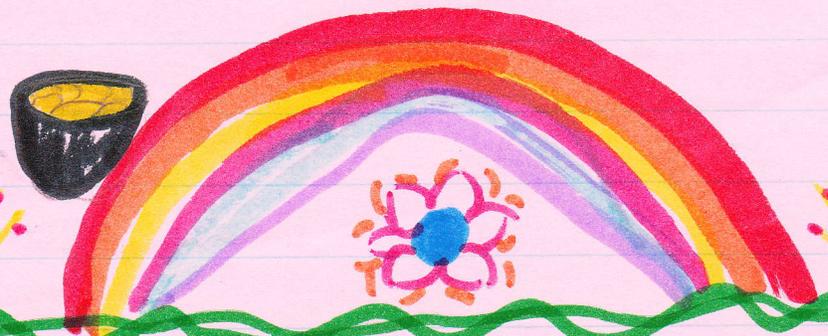

Another thing I learned was that onions have rings.

My favorite activity of all was Uncle John's Farm.

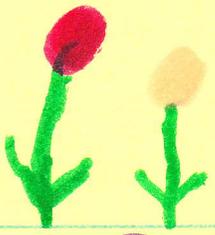

My gardening experience was fun because I got to plant. Thank you again.

Sincerely,

Zay
