Wow!! Even More -- we also have an evening program!

**Susan Betz presenting on
"Magical Moons and Seasonal Cycles"**

Susan Betz is an author, garden communicator, lecturer, and conservationist specializing in herbs and native plants for over 35 years. She is also a Master Gardener from Michigan.

Magical Moons and Seasonal Cycles follows nature's annual cycles according to Algonquin full moon names, demonstrating how seasonal weather patterns and climate effect the ice cycles and interactions of common native plants, animals and insects living in our backyards and local communities. Based on the book: *Magical Moons & Seasonal Cycles Stop-Look-Listen Stepping into the Cycles of the Seasons*.
